### EXPERIENCE

#### Shadhin-Shop

<https://shadhin-shop.vercel.app/en>

- An e-commerce platform features a powerful search engine, advanced filtering. The platform supports social authentication and automatically sends invoice emails upon purchase. Customers can view detailed product pages, rate items, and utilize the wishlist features.

#### OpenSub

<https://open-sub.vercel.app>

- A subtitle-sharing platform designed to enhance the movie-watching experience. Beyond offering extensive subtitle contributions and downloads, it allows users to search for movies, view detailed information including ratings, trailers, and related movie suggestions.

#### Rythmify

<https://rythmify.vercel.app>

- A dynamic music platform powered by the Spotify Free Developer API. Rythmify showcases popular artists and offers detailed artist pages featuring albums, top tracks, and related artists. Users can manage their playlists, search for tracks, and enjoy a personalized music experience.

#### Pursuit of Card

<https://pursuit-of-card.vercel.app>

- A multiplayer online card game built with Socket.IO for real-time gameplay. Features include seamless in-game chat, live interaction with players, and competitive card passing mechanics. Players can join games and experience dynamic rounds with an engaging, interactive interface.
